Bus Fare Calculator

- Help a bus conductor to figure out the right fare for a passenger.
- Rs.3 for the first 3 kms (base/min fare), Rs.2/km after that.
- After travelling 20 kms, the fare is reduced to Re.1/km.
- calculate the fare from the place a passenger gets on to the place they get off.

How To Use:

- To start, go to project folder

    cd .\bus-fare-calc

- Start:

    go run .

- It will display list of bus stops enter your source and destination bus stops

    `1>10`

- After giving values it will print fare

    `H.S.R. Layout > Vasantanagara = Rs.47`
